Computer Science graduate from the Open University of Israel with a strong interest in creation and problem-solving. Seeking an entry-level position to leverage my skills and enthusiasm. A quick learner and attentive listener, I am highly motivated and dedicated to learning and delivering high-quality results.

Education

Bachelor's Degree In Computer Science, Open University of Israel   *2020-2024*

React, Redux, and Next.js Development, Udemy Course   *2024*

Award - Dean's List   *2020*

FreeCodeCamp
- Studied and practiced HTML, CSS, and JavaScript, along with libraries such as Bootstrap, jQuery, SASS, React, and Redux.

High School Diploma (Bagrut)   *2018*
- Completed with 5 points in Math, English, Biology, and Chemistry

Skills

- HTML
- CSS
- JavaScript
- SQL
- MongoDB
- Express
- React
- Node.js
- Redux
- Next.js
- Java

Experience

Cloud and network application development Course - Open University
- I gained extensive experience with web development technologies. For our final project, 'Expired Food Checker' - we used React, Node.js, and MongoDB. Working in a team of four, this project not only deepened my technical skills but also significantly enhanced my teamwork abilities.

System Programming Laboratory - Open University
- Assembler Project: Developed as the final assignment, this project involved implementing an imaginary processor for the MIPS language using C.

Work Experience

Store Keeper, Lombliko   *2021-2023*
- Managed inventory and maintained safety standards for secure storage and handling across different market networks

Military Police, IDF   *2018-2021*
- Served as part of the Israel Defense Forces' Military Police
